The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

25 Dearborn Ave., Chicago, Nov. 7.

I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel now as the old man, and am a new man. I am getting much stronger, and feel first-rate. I am a self-made engineer, and now advise my wife regularly. I can not say too much in praise of your wonderful medicine. D. C. MACK.

Brown's Iron Bitters does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

If you need anything in the line of stoves, ranges, glass, agate or tinware, you can save from 20 to 30 per cent by buying of Knowles & Batesbridge; you will find them agreeable and profitable people to deal with.

The town trade is but a small part of the business being done by A. Lindley & Co.; their daily shipments wherever a team or a pack mule can travel is somewhat astonishing. There is no expense attending an examination of their stock.

The crowd which can at all times be seen going in and coming out of J. J. Becker's place of business, show that the people know where to get a glass of good beer and a nice clean lunch—no "alters" or traps to interfere with legitimate customers.

George Becker, the proprietor of both the Pacific Brewery and the Granite Saloon, has shown what intelligence and industry can accomplish in building up a business in an appreciative community. He knows how to make good beer and is not sparing with the grain.

A GAZETTE reporter thought this morning that the Levy Brothers had taken the contract to cover the sidewalk on the west side of Virginia street with oilcloth, but an inquiry revealed the fact that they were selling Nasby enough to cover the floor of his new store on Commercial Row. WADSWORTH DOINGS.

Interesting Scapes From the East End.

Our hot season seems to be over, as we now have pleasant breezes, and the mercury rarely goes above 86°.

Our officials are making it warm for Chinamen who are selling whisky to Indians, of which a number have been found guilty lately. Sunday an Indian got drunk and raised a row. Constable Shields promptly arrested him, and put him in the lock-up. He also kept a sharp look-out, and soon found the Chinaman who sold the rum, whom he arrested. They had a hearing this morning, and both came to grief. The Chinaman will be sent up for six months, and the Indian for 30 days. There has been far too many drunken Indians lately, and this is the first step that has been taken to stop it.

E. Fowler and wife are still here. Nearly all the rest of the citizens have returned from their vacations.

E. E. Whiteman of Sand Springs, Churchill county, has, within the past few days, shipped from this station a boring machine, which he had sent from some point in Ohio. He intends boring artesian wells on his extensive stock ranges. This is a step in the right direction.

Grain Destroyed by Fire.

Three stacks of Frank Dickinson's grain were burned up yesterday at his Winnemucca, Valley ranch. He had seven large stacks in a row and had just begun threshing when the fire occurred. By hard work four of the stacks were saved. The fire is supposed to have started from the heat produced by the threshing machine heater. The machine was also destroyed. Loss \$2,000. It was insured in the Zena for \$2,100.

Literary Society.

The Reno Literary Society will meet at the residence of T. F. Laycock, on West street, Thursday evening, the 16th instant, at 7:30 P. M. for reorganization. Members will please take notice and be prompt by order of the President.

THE TEACHERS' INSTITUTE.

How the Matter Stands—Reno Will Most Likely be Selected as the Place for Holding the Session.

The Appeal says M. D. Bowen of Franktown and G. Oman of Genoa is the authority for denying that the State Teachers' Institute will be held at Reno. No steps having been taken by any other place to secure the institute, and those interested in educational matters in Washoe county understanding that if they would secure the county appropriation a joint county and State Institute would be held at Reno. The County Commissioners were solicited to make the appropriation, and as friends of education promptly responded to the call. These gentlemen, the Appeal's authority, not residents of Carson, appear to be jealous or have a pique at Reno, say that the last Teachers' Institute decided to hold its next meeting at Carson. The law provides: "That the State Superintendent of Public Instruction by the consent of the State Board of Education, shall convene a State Teachers' Institute annually in such a place and at such a time as he may deem advisable."

Neither the time nor place of holding the Institute is the property of the teachers of the State, but is the property of the Superintendent of Public Instruction, and he should at once place the Institute above bargain and sale, and hold it where it will do the greatest good to the greatest number.

Reno has been liberal, and her peculiar central location from a railroad standpoint, makes her more central than any other town in the State.

Neither Mr. Bowen nor Mr. Oman moved in the matter till after Reno, or Washoe county, had taken a step, and it certainly comes with bad grace for Mr. Bowen to fight his own county, because the last Institute did a thing it had no authority to do.

It is now certain that the Institute will not be held the last week in August, and the place where it will be held is in doubt.

It is due the teachers of the State to know soon when and where the Institute will be held, and the Superintendent of Public Instruction should determine the matter forthwith.

ANOTHER RAILROAD.

The Chicago, Burlington and Quincy Coming to Utah.

The Denver News says that on the 1st of September work on the new line to Ogden will be commenced by the Chicago, Burlington and Quincy, and it is rumored when Ogden is reached, the Burlington will not rest satisfied with any passenger agreement with the Central Pacific, but will build a line of its own to California. At all events the construction of a line to Ogden may be looked upon as among the certainties of the coming Autumn. The Burlington moves slowly and cautiously, and it is always reticent about its plans, but ever since the line reached Denver it has had its eye on the country beyond, and the growing importance of Utah and the Pacific Coast trade has ripened into intentions. The projected line to Ogden has been the subject of railroad rumors all Summer, and though some of these have been without foundation, enough has been learned to warrant the prediction that extensive building operations to the Mormon country may be reckoned among the certainties this Fall.

Not Dead But in Mock.

Information recently received here, leaves but little room for doubt that "Slim Jim" is still alive.

A Mr. Skeleton, the agent for the iron post and wire fence, who was here a short time ago, said that he knows "Jim" and all his family well, and that the genuine three card monte thief of the Central Pacific, for some offense against the peace and dignity of the Commonwealth of Illinois, is languishing in the State Prison at Joliet, where his many victims probably hope he may long remain.

The Sierra Valley Stage Robbed.

The stage playing between Truckee and Sierra Valley was robbed yesterday afternoon by two masked men about 12 miles out of Sierra Valley. The robbers relieved Wells-Fargo's treasure box of \$1,000, and the passengers of about \$40. Officers are on the trail and will undoubtedly "pull" the imitators of Claude Duval's method of accumulating a fortune in a day or two.

Mrs. Tremor Coffin, says the Index, gave a pleasant party Monday evening to a crowd of Carson young people, the occasion being in honor of Miss Cora Ferguson, a popular young lady of Reno, who is visiting the family.

George Atwood, whom every old Comstocker remembers, was a passenger for San Francisco this morning, from the East. George is married, and looks as gray as a badger. His wife was with him. He has interested a lot of Englishmen in a Montana silver mine, and has been elected superintendent. He was on his way to San Francisco to purchase machinery for his bonanza. Since he left here he has assumed the airs so peculiar to the Britishers, and refers to his journey across the country as "the bloody ride across the blasted country."

NOT ENTIRELY SUBDUED.

The San Carlos Apaches Still Thirsting For Blood.

W. C. Green, who arrived in Tombstone on the 10th inst., from Basochu, Sonora, brings the startling intelligence that Colonel Bandola, of the Twenty-second Mexican Regulars, commanding the force operating against the Indians, was killed August 2d by our San Carlos pests. The news was first brought into Green's camp by six Mexicans from Opocura, and was confirmed by the Mexican Custom-house officers of San Pedro, who received the particulars August 4th. A band of 30 Apaches made an attack upon Opoto and killed four men. Colonel Bandola who was at Huavos with 60 of his regiment, upon receipt of the information, started immediately to the scene of the murder, going through a canyon. Bandola, a bold, fearless man, was riding some distance ahead of his command with two companions. They were fired upon in ambush. The Colonel fell, two bullets piercing his breast, killing him instantly. His companions also fell, mortally wounded. The troops came quickly up, but the savages had disappeared. Next day three Mexicans were killed in the neighborhood, and the following day 23 horses were stolen.

A Singular Accident.

Last evening's Virginia Chronicle says: Dave Patterson, a miner working in the Combustion shaft, this afternoon met with an accident which nearly proved serious. He was striking a cold-chisel with a sledge-hammer, when the former slipped and cut an artery in his right arm. He bled very profusely, but immediately hurried to Dr. Conn, who sewed up the wound. The buggy in which he drove to this city was covered with blood and his clothes were saturated.

Half Rates.

D. A. Bender says no matter where the Teachers' Institute shall be held, the teachers will be granted half-fare rates over their lines of railroad.

MAYDEN HILL.

Further Developments Justify Former Reports.

Below will be seen something more of the recent strike at Hayden Hill, in Modoc county, Cal. The Adin Argus of the 9th says: Messrs. Frank, Lacert & Burgett, who worked the "Hayden Gouge," have been troubled for air in their main tunnel. To supply this requisite they commenced sinking a shaft to intersect the tunnel. There was no expectation of striking pay in this shaft, but on Monday last the dirt thrown out looked so encouraging that a horn full was washed out. The reader must guess the surprise of the happy miners when they discovered that dirt which they were throwing away was worth from one to five thousand dollars per ton! Pay dirt commenced at a depth of 35 feet; the vein is 24 feet in width.

Many claims have been from time to time taken on the flat south of the Hill, but nothing of value has been discovered there previous to last Thursday. On that day Driscoll & Stearns struck a 14-inch vein of ore, which prospected from \$20 to \$80. On the following Saturday they uncovered ore which competent judges say will pay at least \$250 per ton. After this last strike business began to get tropical at Hayden Hill. Recorder Helgert was kept busy night and day. On last Monday night claimants with lanterns were staking off claims during the entire night, and what adds fuel to the flame of excitement is the fact that two of these late claimants, Silvers and Dunn, yesterday morning struck \$80 dirt at a depth of only three feet from the surface. The present indications are that this flat may prove even richer than the main hill—a veritable "field of the cloth of gold."

In many of the claims miners have quit working for wages, preferring to prospect for themselves. We hear that the miners in the Juniper claim are, under the superintendence of Morris Casto, taking out dirt that runs as high as \$10 and \$14 per pound.

A true iron medicine, beneficial to the young as well as the old who suffer from dyspepsia, etc., is Brown's Iron Tonic.

Humboldt Items.

The Silver State of the 13th inst. says:

United States Marshal Corbett has gone to McDermitt, to inquire into the alleged Indian troubles at Harney Valley, and possibly to investigate the recent shooting affray near the Post.

Sheriff Rickard claims to be the owner of the largest team in Eastern Nevada. They are of Clyde stock and weigh over 1,800 pounds each. They were raised by Hock Mason.

Joseph Marzen has purchased W. P. A. Craig's ranch. The price was \$4,500. This gives Marzen several miles frontage on the railroad, and brings the eastern line of his broad acres to within a quarter of a mile of the station at Lovelock.

An Old Print Seriously Ill.

Pleasant Moore, formerly of the reportorial staff of the Gold Hill News, says the Virginia Chronicle, was taken with a severe hemorrhage from the lungs last Saturday afternoon. Mr. Moore came in from Eureka on Saturday morning. At Palisade he bled slightly from the lungs, and on arriving in this city sought medical treatment. He was very low Sunday, but Monday he was some better.

Must be in a Hurry.
